

# **A-HOT Ceramic Knives and Peelers**

A-HOT Ceramic Knives and Peelers have a unique blade made of Zirconium Oxide, an innovative high-tech material ideal for most normal kitchen usage. The special blade will hold its edge much longer and harder than steel and stay sharper, will never rust and won't alter the look or taste of food. A-HOT Ceramic Knives and Peelers are low maintenance and easy to clean. Their lightness makes them easy to handle and use.

## **ADVANTAGES:**

- 1. Thicker blade and handles available in many colors.**
- 2. Sharper than most steel knives.**
- 3. No metallic taste or smell.**
- 4. Stain-proof and rust-proof.**
- 5. Ideal for special applications requiring chemically inert, non-magnetic, non-conductive, or non-contaminating material.**
- 6. The nonstick ceramic surface makes them easy to clean.**
- 7. Light weight and perfectly balanced.**
- 8. Ideal for any type of cutting or slicing.**
- 9. Suitable for general applications requiring superior edge retention or wear resistance.**
- 10. Easily cleaned with water and liquid dish detergent.**
